

# Transport Pathway Disclosure Form

Groundwater transport pathways are human constructed pathways through soil or bedrock that may increase the vulnerability of groundwater to certain contaminants. If a groundwater transport pathway is created, or is identified, Wellington Source Water Protection must report it to the pertinent Source Protection Authority for review.

Property Address or Legal Description: \_\_\_\_\_

Roll Number (if known): \_\_\_\_\_

Owner/Applicant Information:

Owner	Applicant (if different than Owner)
Name:	Name:
Phone:	Phone:
E-mail:	E-mail:

Who should we contact if additional information is required?

Owner                      Applicant

Are groundwater transport pathways existing or proposed?

No                      Yes - Complete table below

Groundwater Transport Pathways	Existing	Proposed	Not Applicable
Vertical Geothermal System			
Well not in use ( <i>includes domestic wells and environmental or geotechnical monitoring wells</i> )			
Aggregate Extraction Project			
Non-residential or Large Multi-Residential Cassions/Building Piers			
Utilities/Excavation in fractured bedrock			
Parking garage/tunnel			

If any of the above activities are occurring, please provide a brief description of the proposal and any relevant construction details (maps/cross-sections/figures, depth of excavation, etc). If constructing a geothermal, please provide details including depth, vertical or horizontal, and whether the system is closed or open loop.

By signing below, I declare that the information contained in this application and all attached documentation is true and accurate to the best of my knowledge. I understand that incomplete or inaccurate information may void any Notices or approvals issued relating to the proposal for which this application was intended.
